Recyclable Municipal Solid Waste (MSW) handled by NMB

- Hard Plastic
- Soft Plastic
- Bottle Caps
- Water Jugs
- Styrofoam
- Cardboard
- Metals
- Glass
- Batteries
- Cork
- Cigarette butts
- Electronics

Total Municipal Solid Waste (MSW) Transferred

Total Recyclable MSW Handled

- Over 40,242.53 kg (40 tons)

EASTER WEEK OPERATION

(SEMANA SANTA)

APRIL 2-6, 2026

Operation:

During the Easter holiday operation, actions were carried out to promote the proper management of waste generated by campers in the bay. Students from CECyT 09 High School and Leonor Meza Martínez Telesecundaria participated in these efforts.

During the four days with the highest visitor attendance, trash bags were distributed and the use of portable toilets, recycling bins, and general waste containers was promoted in order to reduce the environmental impact on the area.

4,230 Campers on peak day (Friday)

24 Portable Toilets

4,800 Liters of Human Waste

40 Trash and Recycling Bins

575 Bags Distributed

21 Students

9 Volunteers

Other participants:

* La Ventana Bay Properties
* Mextli's Gluten Lab Panadería
* Palapas Ventana
* Puro Osgasmo Italiano
* Policía Municipal

POST STORM CLEANUP "HURRICANE ERIN"

SEPTEMBER 9, 2025

Cleanup of a critical accumulation point of debris carried by the usually dry creek beds (arroyos) during hurricane season, located between ChiloChill and Ventus Bay. In this area, trash from the creek bed that flows past the landfill becomes trapped before reaching the sea. The activity aims to prevent the debris from ending up in the ocean or nearby natural areas.

20 adult volunteers

4 accompanying children

Approximately 40 hours of volunteer community work

Collected:

- 11 bags of trash
- 13 plastic bags (recycled)
- 27 kg of glass (recycled)
- 1 kg of aluminum (recycled)

TOWNC CLEANUP

DECEMBER 6, 2025

Students from three schools participate in the town cleanup activity: CECyT 09, the Leonor Meza Martínez Middle School, and the Vicente Guerrero Elementary School. These cleanups have been carried out annually since 2017.

Location: La Ventana and El Sargento

120 Students

40 Volunteers

360 bags of trash collected

Other participants:

* Aqua Ventana
* Baja Joe's
* Baja Wonder Grass
* Camp Dancing Birds
* Casa Tara
* Casa Verde
* Delegación de El Sargento
* La Ventana Bay Properties
* Pelican Reef
* Rancho Cacachilas
* Tatehuari
* Todo Bien
* We Wave
* ZOFEMAT

STATE CLEANUP

MARCH 22, 2026

The statewide cleanup was organized by Clean Up BCS, based in Cabo San Lucas, as part of the Blue Wave movement, in which various entities across the state participated in simultaneous cleanups.

This time, we focused our efforts on the entrance to the local landfill to support the implementation of a new operational plan for the site, aimed at improving the proper disposal of waste in the designated unloading area.

We had the support of Eng. Daniel Cabral Ramírez, General Director of Sustainability and Waste Management for the 18th Municipal Government of La Paz, and Mr. Virgilio Burgoin García, Municipal Delegate of El Sargento, BCS.

20 Students

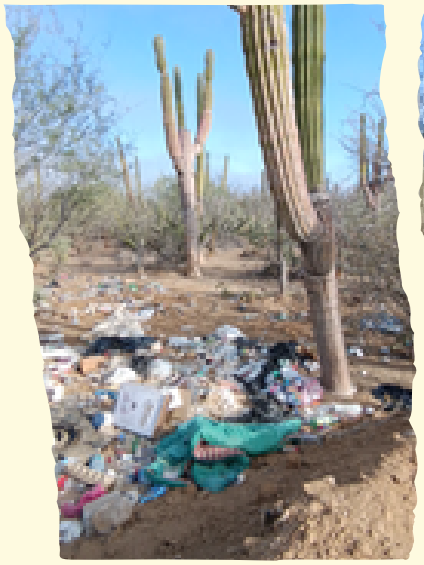

55 Volunteers

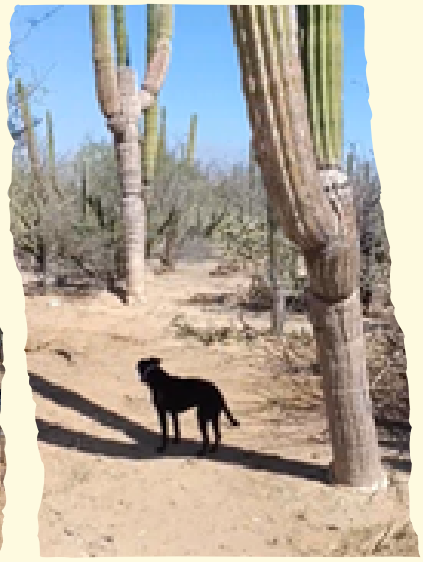

450 bags of trash collected

20 tires

170 tacos

Before **After**

Other participants:

* Ayuntamiento de La Paz
* Black Food Truck Tacos
* Camp Dancing Birds
* Delegación de El Sargento
* Grupo Sierra Ambulancia
* Policia Municipal

RECYCLING CENTER

**Note: The dates for the waste management range from January 2025 to January 2026.*

Municipal Solid Waste (MSW) Managed at the Collection Center:

Plastics **5,865.00 kg**

Plastic Bottle Caps **70.84 kg**

Styrofoam Packaging **659.5 kg** (26.38 Big Bags)

Aluminum **1,832.00 kg**

Other Metals **1,295.00 kg**

Glass **16,212 kg**

Batteries **60.63 kg**

Cork **15.06 kg**

Water Jugs **16.5 kg**

*Cigarette Butts **1,892.00 g**

*Cardboard **~ 2,400 kg** (registration in process)

*Appliances (registration in process)

Total: 28,428.42 kg (28 tons)

We have a community collection center that has provided free service for the proper disposal of recyclable waste since 2017. During peak season (winter), it operates every Thursday, and during off-peak season, it operates two Thursdays a month. This year, we provided service 39 times, preventing more than 28 tons of recyclable materials from reaching the landfill.

PRESENTE

Por medio de la presente hago de su conocimiento que "La Paz libre de colillas" está conformada por ciudadanos preocupados por la contaminación por colillas de cigarro. Una colilla contamina 50 litros de agua dulce y 14 de agua de mar, ya que en esas se concentran hasta 200 contaminantes entre ellos metales pesados. Desde hace más de 2 años colectamos las colillas y compartimos esta información para que llegue a más personas. Estas colillas serán degradadas por medio de un hongo que biotransforma el acetato de celulosa del cual están hechas, en celulosa que sirve para producir papel y otros productos. En este proceso, el hongo biomineraliza los metales pesados que son acumulados en ellas y que contaminan el agua o los suelos donde están son desechadas.

Para su manejo les pedimos siempre que las almacenen en botellas de PET limpias, secas y con tapa, no vidrio. Para hacérnoslas llegar de preferencia que las botellas de PET con colillas vengan en cajas plásticas (jabas) para su almacenaje. Se recomienda recolectarlas y manejarlas con guantes y si es en grandes cantidades, con mascaras para gases y/o en un área abierta, ya que desprenden todavía contaminantes.

Las colillas pueden ser entregadas en: Andador Cooperación #132, Col. Solidaridad, C.P. 23090, teléfono de contacto 612 159 06 29 para fijar la fecha y la hora, o en "Marco Circulares" en Aquiles Serdán esquina 16 de septiembre quienes son centro de acopio en un horario de 9 am a 6 pm de lunes a viernes, en cualquier cantidad.

La recolección de colillas es importante para evitarnos que estás terminen en el basurero municipal, donde son potencialmente contaminantes de los suelos y del manto freático. Es por lo que agradecemos mucho su participación en la recolección de basura.

ENVIRONMENTAL EDUCATION IN SCHOOLS

SINCE 2017

We invited students to participate in outings, cleanups, and immersive workshops related to environmental care and waste management.

Plantel CECyT 09 de Los Planes

1 Workshop of 42 Students
Weekly visits in our Green Hour (Hora Verde) Workshop

TOPICS:

- How students perceive pollution
- History of the Sargento landfill and its annex, La Ventana
- Microplastics
- Waste separation in our homes

FIELD TRIPS:

- Los Planes Landfill - April 4, 2025
  - 15 students
- First Aid Training - May 14-15, 2025
  - 6 students
- Cabo Pulmo (1st Field Trip) - October 24-25, 2025
  - 20 students
  - 2 volunteers
- Pilot Program for Plastic Separation at Traditional Town Party - October 24-26, 2025
  - 3 student volunteers
- Cabo Pulmo (2nd Field Trip) - November 14-15, 2025
  - 22 students
  - 3 volunteers
- Lighthouse 1000: Fundraising through Wind Sports Competition - January 30 - February 4, 2026
  - 16 students in collaboration with Amigos de Alumnos Non Profit

Leonor Meza Martínez Middle School of El Sargento

120 Students

TOPICS:

- Identity (diary)
- Pollution
- History of the Landfill

FIELD TRIPS:

- Los Girasoles Community Garden - April 7, 2025
  - 120 Students
- First Aid Training - May 14-15, 2025
  - 4 Students
- Local Landfill - June 26, 2025
  - 120 Students

Vicente Guerrero Elementary School of El Sargento

68 Students

TOPICS:

- Identity (diary)
- Pollution
- History of the Landfill

FIELD TRIPS:

- Activity discovering tides and marine life - April 9, 2025
  - 25 students

WASTE MANAGEMENT IN SCHOOLS

SINCE 2023

In some schools in the area, we have programs for reducing and separating plastic waste. El Sargento Elementary and Middle School have plastic recycling bins in each classroom and common area. They also have containers for collecting batteries.

1. **Vicente Guerrero Elementary in El Sargento**
   185 Students
   7 Plastic Modules and Caps
   Plastic **45.37 kg**
   Caps **5.29 kg**
   Batteries **16.5 kg**

2. **Leonor Meza Martínez Middle School in El Sargento**
   6 Classrooms of **120** Students
   6 Plastic Modules
   Plastic **119.72 kg**
   Caps **9.3 kg**
   Batteries **4 kg**

3. **CECyT 09 High School in Los Planes**
   1 Workshop of **42** Students
   6 Sorting modules
   RSU **830 kg**

4. **Mariano Matamoros Elementary in Aguamarga**
   1 community module for separating plastics
   Plastic **480 kg**

PLASTIC REDUCTION PROGRAM

FEBRUARY 6, 2026

As part of our program to reduce single-use plastics in schools, we installed a purified water dispenser at Vicente Guerrero Elementary School.

The program was divided into two parts:

* Installation of the purified water dispenser.

* Distribution of reusable water bottles to students.

A second purified water dispenser is currently being installed at Leonor Meza Martínez Telesecundaria #10. Some reusable water bottles have already been distributed to students.

235 students benefited

15 volunteers participated

235 reusable bottles distributed

Constant supply of drinking water

Involved:

*** Baja Wonder Grass**
*** Todo Bien**
*** We Wave**

THE VOICES OF THE OCEAN - "LAS VOCES DEL OCEANO"

FEBRUARY 6, 2026

Creation of an environmental mural at the local elementary school in El Sargento by volunteer artists to promote environmental awareness.

Vicente Guerrero Elementary School

235 handprints

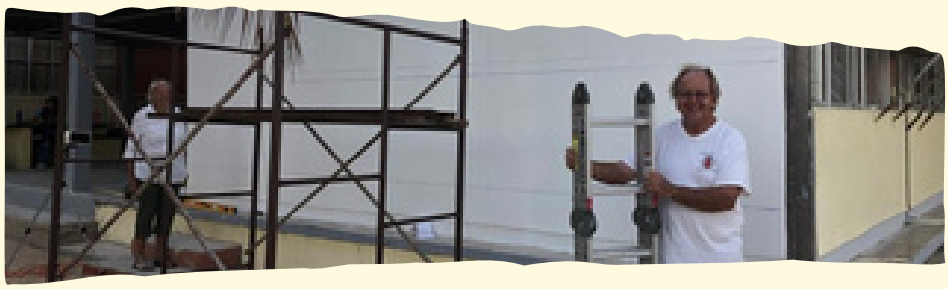

4 dedicated artists

Lots of love

"With small actions we can protect the ocean we love"

- Artist - *Clara Mills*

- **Clara Mills**
- **Parents**

*** The Seashell**
- **Chelsea**

ADOPT A MODULE PROGRAM

FIRST PHASE

Recycling program focused on reducing the volume of waste going to the local landfill through the collection and proper handling of plastics. Local family households with students adopt a plastic separation module as part of a recycling system with free weekly collection service.

Participants:

- 7 families (2024)
- 37 families (2025)
- 70 households (April 2026)

Waste managed:

- Plastic: **2,633.18 kg**
- Aluminum: **34 kg**
- Glass: **103.5 kg**

Total: **2,770.68 kg**

SECOND PHASE: ADOPT A MODULE

ANTI - COW KIT

Mad CoDoWi Prevention Module

Installation of waste containment modules to prevent littering in streets and public spaces caused by inadequate infrastructure and the dispersal of waste by cows, dogs, and wind. This action is part of the Adopt a Module (AuM) program and expands the waste management model to community spaces. Each module includes a metal base and a waste bin.

Results:

Visible reduction of litter in streets and common areas

Participants:

- 30 households (April 2026)

MSW MANAGEMENT SERVICE

Recyclable waste collection service with appropriate final disposal for businesses and homes.

- **14 establishments and homes in total:**
  - Accommodations with restaurant and tourist services: 5
    - Baja Joe's
    - Casa Verde
    - Casa Vista Cerralvo
    - Pelican Reef
    - Club Cerralvo
  - Campgrounds: 2
    - Campamento La Ventana
    - Campamento El Sargento
  - Accommodation: 1
    - Campamento Hot Springs
  - Restaurant: 1
    - El Cone
  - Bike Rental: 1
    - Tatehuari
  - Community Center: 1
    - Mi Casa Es Tu Casa
  - Kite Shop: 1
    - Rico's Kite Repair
  - Homes: 2
    - Meredith
    - Steve & Nancy

Waste managed:

Plastics **862.05 kg**

Caps **41.5 kg**

Styrofoam **4.8 kg**

Aluminium **166.9 kg**

Metal **98 kg**

Glass **7,343.7 kg**

Batteries **38.7 kg**

Corks **4.6 kg**

Organics **242 kg**

Total: **8,802.25 kg**

MANAGEMENT OF MSW AT MASS EVENTS

Management of waste generated at mass events, ensuring the separation and proper final destination of recyclable materials.

Traditional Town Party of El Sargento:

- Pilot program for plastic separation.

Baja Joe's Lighthouse 1000: 3 days of windsports competition and concert for approximately 400 people.

- Handling of plastic, glass and aluminum.

Baja Wonder Grass: 3-day music festival with an approximate audience of 500 people.

- Handling of plastic, glass, aluminum, paper products, cigarette butts and organic waste.
